WORK EXPERIENCE

SR. OPEN SOURCE DEVELOPER

Node.js Foundation

August 2016 - January 2019 (Area) San Francisco, Ca

In 3 years with Nodejs Foundation I advanced from an Jr. to a Sr open source developer who co-leads the help repo, helping a myriad developers from Corporate to open source developers.

- Modified and maintained the open source node.js Help repo
- Work to support the Docs Team and the NodeJs.org Team.
- Managing the <https://nodejs.org> website with teammates.
- Architected an page for the express.js website for the companies that work with Express.js in their tech stack.
- Contribute to organizational improvements in process and infrastructure.
- Architected Node.js solutions to users by researching answers, and guiding them through corrective steps.

JAVASCRIPT DEVELOPER INTERN

Learning Threads Corp. (Area) San Diego, Ca

September 2015

- Project led for Architecting our project to sit on KeystoneJS CMS which was the first CMS built with ExpressJS at the time. I spent a lot of time communicating with the KeystoneJS lead developer.
- Wrote data storage solutions for the database in MongoDB & Mongoose.js
- Demonstrated ability to manage hosting environment, including database administration as well as scaling applications to handle load changes.
